BACHELOR OF COMPUTER APPLICATION   2022-2025

TILAK RAJ CHADHA INTITUTE OF MANAGEMENT AND TECHNOLOGY, YNR AFFILIATED FROM KURUKSHETRA UNIVERSITY

MATRICULATION   2021-2022

GOVERNMENT SR SEC SCHOOL, YNR AFFILIATED FROM H.B.S.E

INTERMEDIATE   2017-2018

SANT NISCHAL SINGH PUBLIC SCHOOL,YNR AFFILIATED FROM C.B.S.E

PROJECTS

- Developed "TinDog" website using HTML, CSS, Bootstrap-a matchmaking platform for dogs to connect, chat, and arrange playdates, featuring user-friendly design and customizable plans
- Developed "TIC TAC TOE" game using HTML, CSS, AND JavaScript that dive deep into front-end development, honing my skills in responsive design
- Developed "Portfolio" to represents milestones in my web development journey. I've designed and built a dynamic platform to showcase my skills.
- Developed "JOB PORTAL" which include User authentication with JWT, Role-based access control (Admin, Job Seeker, Company),Password reset with OTP via email (SMTP using Node Mailer), Resume upload, job preferences, company profiles, and job posting modules, Secure API endpoints with middleware-based authorization

- Built a "Online Course Management System" enabling students to register, enroll in courses, and track progress. Implemented secure authentication and role-based access control for students, instructors, and admins. Designed and managed MongoDB database schemas for users, courses, and enrollment data. Used Git/GitHub for version control and collaborated in an Agile environment with sprint-based development.
- Build a "Flight Management System" is a database-based application that helps manage flight schedules, passengers, bookings, airlines, and staff details. It ensures smooth operations for both airlines and passengers by maintaining accurate and real-time information.
